Honeysuckle is changing and construction is underway

Works Notification: changes to footpaths and walkways as seawall works commence

The Hunter and Central Coast Development Corporation (HCCDC) is getting underway with important infrastructure works that will underpin future public domain in the western end of Honeysuckle.

Works will get underway during April and will lead to changes in how people get in and around Honeysuckle.

Map of promenade diversion for Honeysuckle works

What to expect

Preliminary works:

Footpath widening

Commencing early April, approximately 100 metres of footpath will be widened to optimise pedestrian and cyclist access and safety as a new temporary promenade diversion is put in place. This footpath is on the northern side of Honeysuckle Drive, opposite Hunter Water. Works will take approximately two weeks to complete and will cause some disruption to

pedestrians as the footpath is temporarily narrowed, before it is widened. Cyclists will be required to dismount to better ensure public safety.

Promenade diversion

A new temporary promenade diversion will be installed from mid April that will link through Throsby car park before exiting on to Honeysuckle Drive. To make way for the revised route, some parking in Throsby will be rearranged. Overall, there will be no immediate loss to the temporary public parking.

Hansen Yuncken building demolition

The Hansen Yuncken building will be demolished towards the end of April and will take approximately two weeks to complete.

Major works:

Seawall construction

Important seawall construction works will underpin attractive new public domain in the future. Works include:

- cutting and removing existing Lee 5 and Throsby concrete wharves;
- delivery of 170,000 tonnes of rock to site; and
- placement of rock along seawalls.

A work method has been established to minimise noise and disruption as much as possible. Despite this, it is anticipated that these works will be noisy at times.

Construction will be conducted during the standard construction hours of 7.00am to 6.00pm Monday to Friday and 8.00am to 3.00pm Saturday.

Works will commence from late April and are expected to take around 18 months to complete.

More information

We appreciate your patience while we conduct these important construction works.

More information will be shared as works progress, however current information can also be found on the HCCDC website www.hccdc.nsw.gov.au

For any further enquiries and to register for regular Honeysuckle updates, please contact HCCDC on info@hccdc.nsw.gov.au or call 4904 2750.
