

## **NIGHT WORK ON HONEYSUCKLE DRIVE – 11 MARCH 2020**

6 March 2020

The urban renewal of Honeysuckle is a signature project for Hunter and Central Coast Development Corporation (HCCDC). Honeysuckle is changing and with new open space areas alongside residential, commercial and entertainment precincts, it is essential there is easy access for cars, bikes and pedestrians along the length of Honeysuckle Drive.

Robson Civil Projects is working on behalf of HCCDC to realign Honeysuckle Drive between Hannell Street and Steel Street to improve traffic flow through the area.

To ensure work is completed as quickly as possible and to reduce traffic impacts, **night work will occur on Wednesday 11 March 2020** in addition to standard construction hours.

Work will include:

- > Finishing driveway construction for the new entrance to Throsby Temporary car park
- > Installation of fencing in Throsby Temporary car park.

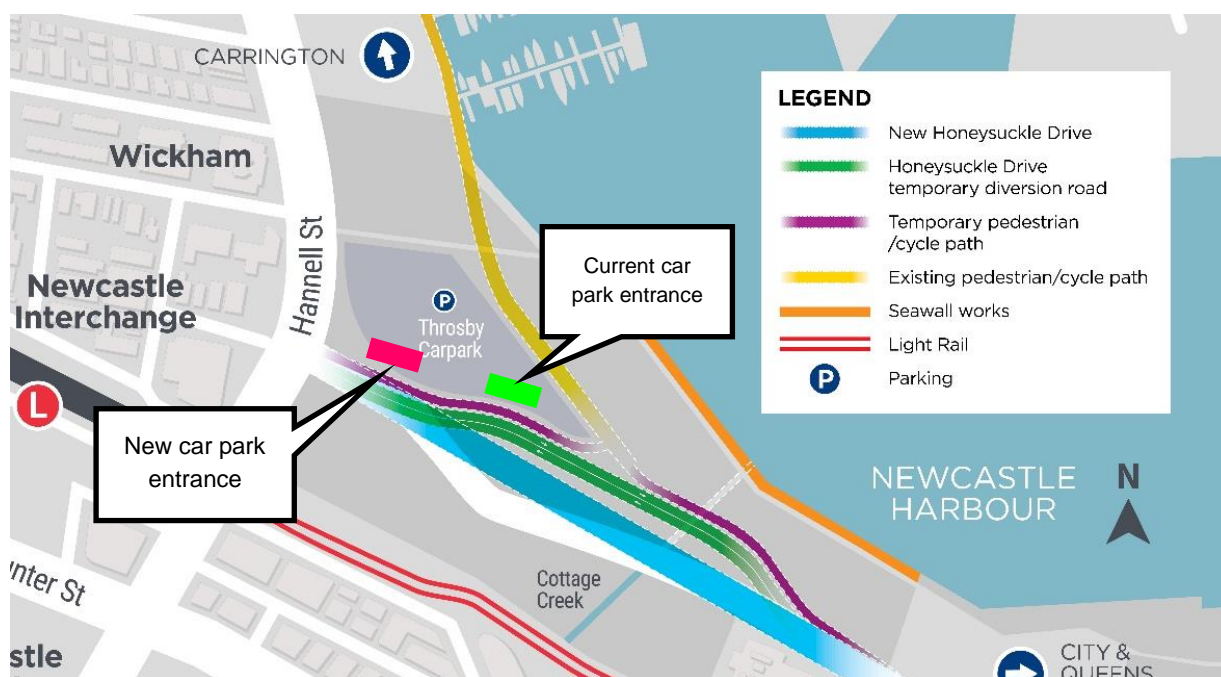

### **When will work take place?**

We will be working between **7pm on Wednesday 11 March until 6am Thursday 12 March 2020**, weather permitting.

**The car park will be unavailable, and all vehicles must be removed by 7pm on Wednesday 11 March. The car park will re-open from 6am Thursday 12 March.** If work is affected by weather, this work will be undertaken on the next available night.

### **Traffic and Pedestrian Changes**

The new entrance to the Throsby Temporary car park will be at the west end of the car park. Pedestrian diversions and traffic controls will be in place during work.

For urgent enquiries or complaints about construction activities, call our 24-hour construction response line on **0401 096 484** or email [honeysuckle@robsoncivil.com.au](mailto:honeysuckle@robsoncivil.com.au)

**What equipment will be used?**

Equipment will include, but is not limited to, trucks, forklifts, temporary light, light vehicles, power tools and hand tools.

**What to expect during construction**

There may be some noise associated with this work. We apologise for the inconvenience and will aim to minimise the impact of our work by:

- > Turning off equipment when not in use
- > Using non-tonal reversing beepers on all machinery (including delivery vehicles)
- > Positioning noisy equipment as far away as possible from residents and businesses.

**Thank you for your patience during this important work.**
