Dear Resident/Business Owner,

RE: WATER RETICULATION – KANGOO ROAD

Bolte Civil has commenced watermain reticulation and associated works on Kangoo Road, on behalf of Hunter and Central Coast Development Corporation.

The works will continue until 2 October, with clean-up works to be undertaken thereafter. To minimise impact on stakeholders, all major driveway crossings on the western side of Kangoo road will be underbored, allowing pedestrian and vehicular access for local businesses.

Please note parking on the eastern side of Kangoo Road will be limited during this time.

An approved traffic management system will be implemented to maximise safety of workers, motorists, and pedestrians for the duration of the works. Where crossing works are conducted (from the commuter carpark on the eastern side of Kangoo Road to the western side), a staged approach will be implemented and travel lanes will be delineated and signposted as required.

Kangoo Road will remain open to the public at all times..

For your safety, Bolte Civil requests that traffic and pedestrian control conditions and signage be followed at all times. We appreciate your assistance and patience during this time.

If you have any queries or feedback about the construction works, please contact us at 4351 1512 or email info@boltecivil.com.au. Emergency contact details will be provided on information signage located at the site office.

Yours faithfully,

Thomas O'Dea
Project Manager
Bolte Civil Pty. Ltd.
