

Construction of Parklands Road Upgrade

Notification – CONSTRUCTION UPDATE – February 2023

PROGRESS AND UPCOMING WORKS

On Thursday the 16th February 2023 resurfacing works along Parklands Road will commence. These works involve removal of the existing surface in preparation for the new bituminous seal and new asphalt surface. Over a period of approximately three weeks there will be intermittent closures to various sections of Parklands Road as the works progress. Wherever possible these intermittent closes (apart from the current closed section between Vernon St and McCabe Rd) will occur between 9:00am and 3:00pm to minimise disruption for school related traffic. The closures will be accompanied by site signage, diversions and Traffic Control personal as required for each section to clearly delineate how to navigate around Mt Penang Parklands.

Remember to please obey all directional and roadworks signs during construction, as they may change on individual days to suit the new surfacing works.

As each section is completed, please be vigilant for new signage and linemarking that help illustrate the new traffic flows around the Parklands.
